

We have contracted with Boston Welding several projects in the last couple years. Some of the projects we have used their services for listed below.

1. 35 Cambridge Park drive . Cambridge, MA.

We contracted with Boston Welding to manufacture, Engineer and install custom perforated exterior wall panel system and all the associated structural steel framing and attachments required.

2. 600 Longwater Drive. Norwell, MA.

This project consisted of Allstate Glass installing an all glass standoff based heavy glass railing system and we contracted with Boston Welding to fabricate and weld all the handrail brackets, handrail and wall brackets in brushed Stainless steel

3 . 44 Symphony Court, Boston.

This project was several staircases that Allstate Glass had glass handrails and Boston welding furnished,fabricated and installed all the finish stainless steel cap rails, handrails .

Boston welding has always performed their work professionally, accurately, and has always been very dependable, and most importantly flexible and able to work with the schedule at hand to get these projects completed on time.

I Highly recommend the whole team at Boston welding and plan to do many future projects together.

Regards,

Michael Lizotte Jr

Project Executive.

ALLSTATE GLASS COMPANY.
